Founded in 1996, Connectria has been ranked 15-times as a Best Place to Work and provides award-winning cloud hosting, cloud managed services, cloud security, and cloud management software for more than 1,000 customers worldwide. Connectria was the first HIPAA compliant managed hosting company and the first company to deliver HIPAA and PCI compliance in AWS and Azure. Connectria is the largest IBM i (AS/400) cloud provider in the world. Through the addition of WSM in 2019, Connectria has become a leader in providing cloud migration and transformation services for organizations of all sizes. **www.connectria.com**

Fully-supported, industrial-strength, native credit card processing software as a service (SaaS) for the IBM AS/400 - iSeries - Power Systems on IBM i - family of midrange computers.
Our unique technology is designed to:

- Increase credit card data security
- Reduce PCI security reporting burden
- Provide seamless, real-time IBM i integration
- Facilitate use of “cards on file” for returning customers
- Reduce per transaction fees
- Support phone orders, e-commerce and retail POS with “chip card” support

inFORM Decisions (www.informdecisions.com) specializes in document automation solutions for the IBM i (iSeries) with its iDocs Suite along with solutions like iWorkflow that intelligently improves an organization's Business Processes (BPM). Learn how document distribution, capture, workflow, mobile signature capture, and dynamic automation of documents can save money, increase document security, and improve organizational efficiency, visit **www.informdecisions.com** or call 949.709.5838.

iTech Solutions, an IBM Gold Business Partner, helps you get the most performance, utilization and return on investment out of your existing or new IBM POWER Systems running IBM i, while helping ensure your critical business data is secure. Our offerings include: IBM Power Systems and Storage, Managed Administration and OS Subscription Services, IBM i Cloud Hosting, OS Upgrades, PTF Maintenance, HMC and FSP Upgrades, Health and Security Assessments, HA Replication solutions, DR Testing, tape and disk encryption, Virtual Tape Libraries, VERIFi and more. Contact our certified sales and technical staff to learn how we can make your environment run smoothly. **www.itechsol.com**

Midrange Dynamics provides application lifecycle and API management for hundreds of enterprises and small IT teams worldwide. As an IBM business partner and member of the IBM ISV council, we continually evolve our solutions to support the IBM i technology roadmap and our clients' future requirements. Upgrade to the Midrange Dynamics product suite to manage IBM i and multiplatform development and work seamlessly with DevOps initiatives and CI/CD pipelines. There is so much available to you in Midrange Dynamics Change Management (MDCMS). 1.877.290.6714 info@md-na.com **www.midrangedynamics.com**

Are you trapped between a limited function query tool from the past and a complex, costly analytics solution no one has time to learn? NGS-IQ is designed for busy people who need queries, reports, and data but also have other job responsibilities. It's an affordable, advanced function, easy-to-use alternative not requiring consultants, more hardware, new databases or middleware. Excel users create and refresh sheets and pivot tables in one click. Analysts create on-the-fly multidimensional models without writing programs, and Web users can see real-time reports with drill down links and charts. NGS offers customized demos and free trials. Visit **www.NGSI.com**

DO IT with DBU - RDB Connect - SQL/Pro and more! Gain secure access to ALL of your company's data from ANY network-connected device with DBU WEB. Access DBU from a sleek, intuitive graphical interface from your favorite web browser or thru the RDi development environment. Take it even further and integrate RDB Connect to programmatically access data outside IBM i. Once you have it, drill down with SQL/Pro. ProData provides all the programming utilities you need to get the job done! **www.DoDBU.com**

For over 20 years, Profound Logic has provided industry-leading solutions for end-to-end IBM i modernization. We modernize interfaces, and go beyond with solutions for web and mobile development, code modernization, modern databases, web services and Rest API, and cloud-readiness. Our Node.js solutions enable businesses to deliver scalable, portable, and future-proof applications. We have offices in Ohio, Wisconsin, California, and Mississippi, in addition to partners located around the world. **Learn more at www.profoundlogic.com** or contact us at 877-224-7768.

EXHIBITORS

OpenLayer, a flagship product of PROplus Technology Inc, is innovative product which provides access and integration by following IPA "Innovative Process Automation" for any iSeries and Mainframe System. OpenLayer framework can significantly increase the speed of delivering new transaction centric API, without any risk of reengineering the server logic or directly updating the database tables. OpenLayer framework provides the ability to develop the API by emulating the existing transaction (user information and action). If data can be simply entered by a user it can be passed to OpenLayer via a REST API to execute the transaction on server (utilizing IPA). All of this would occur with no risk to the integrity of the transaction as OpenLayer simply acts as a virtual user and only receives or passes information as a user. It would be using the existing proven business logic on the server. The integrity and security of the transaction would remain completely intact. **www.proplus.com**

Where would you be without the ever-accelerating technology that's propelled you this far? Its potential is miraculous. Its power is undeniable. But its nature is change. And so is ours. With more than 25 years as innovative leaders in software development, engineering and application lifecycle management, we thrive on growth and transformation — and on helping organizations like yours do the same. It's increasingly true: Your strength in application development relies upon intelligent, stable and integrative application lifecycle management. They go hand-in-hand. Count on our DevOps solution, featuring our intuitive change-management, impact analysis, and continuous testing and deployment. **www.remainsoftware.com**

Established in 1982, SEA (Software Engineering of America) has built a global reputation as a leader in the field of data center software solutions. We are one of the most successful companies in the Data Center software industry, with solutions used at thousands of installations worldwide. Over 10,000 data centers of all sizes and configurations are utilizing one or more of our IBM i or IBM Z software solutions, including 9 of the Fortune 10 as well as 85% of the Fortune 500 Companies. We are proven experts in Security and Process Automation products, services and 24/7/365 support. **www.seasoft.com**

TL Ashford develops software for IBM i to generate Barcode Labels and Forms. We pride ourselves on developing clean, efficient software, and backing up our products with the best technical support in the industry. Barcode400 is the #1 Labeling solution for IBM i. Thousands of customers generate bar code labels in every industry. TLAForms is the easiest way to convert your traditional IBM i spool files into full-color, professional forms. Barcode400 and TLAForms are the most feature-rich, cost-effective software solutions available today for IBM i, backed by our exceptional tech support. Download free trial software at **www.tlashford.com**

Central Park Data Systems: A fundamental tenet to our success in the IBM i community is the mutual trust and respect we share with our customers. Genuine and reliable partnerships with a common goal of excellence. Some of our many talents include programming and consulting, and all facets of IBM i and DB2 system design. We also offer professional onsite training using IBM's Rational Developer for I (RDi). Using our professional network relationship model, our offerings extend to networking, hardware sales, planning, migration and installation, and website and mobile application design. Our technologies include EDI, AS2 communications, data encryption, PCI compliance, bar coding, WMS and all traditional distribution and financial modules. Other services include EDI monitoring, data migration, product and system support and professional project management. **www.centralparkdata.com**

The Leading Provider for IBM i Cloud Hosting. Data Storage Corporation (DSC) solutions consist of data protection and business continuity services that help organizations secure their data, minimize downtime and recover and restore data within their objectives. Through our six data centers and by leveraging leading technologies, we deliver and support a broad range of premium solutions for IBM i environments to help our clients save time and money, improve access and gain more control over their data, while providing the highest level of security. We have been an IBM business partner and IBM i specialist for over 25 years. Learn more at: **www.datastoragecorp.com** or contact us at: 212-564-4922.

International Business Machines (IBM) is an American multinational corporation providing a wide range of technology solutions and consulting services. IBM manufactures and markets computer hardware and software, and offers infrastructure, hosting and consulting services in areas ranging from mainframe computers to nanotechnology. IBM lives at the intersection of technology and business. This enables us to change the way the world works, and in so doing, to be essential to our clients and to society. IBM is a leader in embracing open source solutions, cloud computing, and cognitive computing. IBM is one of the founding members of the OpenPOWER Foundation that will enable data centers to rethink their approach to technology and bring new innovative solutions to the market. IBM Watson delivers cloud-based guided analytics, data visualization and predictive analytics that make understanding data easier and provide unprecedented insights from an organization's data. IBM systems help organizations worldwide manage and optimize their activities and operations in industries and government agencies, such as, banking, construction, distribution, reservations, transportation, retail, trading, and healthcare. IBM mainframes alone process 75 percent of the world's business data**.** **www.ibm.com**

imPower Technologies was co-founded in 2016 by IBM i educator and author Jim Buck and Michelle Lyons to prepare the next generation of IBM i professionals. Organizations looking for candidates with current IBM i platform skills can leverage imPower Technologies' training programs to train programmers with legacy IBM skills as well as candidates with non IBM backgrounds on the latest RPG techniques, tools and the IBM i operating system. This can be a powerful first step to any modernization efforts. As a College instructor for 15 years, Jim introduced students to the IBM i platform and he successfully equipped them with the necessary tools to work on the IBM i platform. imPower Technologies will fulfill Jim's longtime desire to broaden his reach to educate many more students on the IBM i platform. **www.impowertechnologies.com**

Every week, CEOs, CFOs, CIOs, IT managers, and programmers try to monitor an avalanche of IT announcements. Choosing and using this information wisely isn't easy. Without good information and careful consideration, decision makers and end users can fall prey to the latest fads or miss opportunities that cut costs or boost revenues. We created the IT Jungle to help you figure out how to survive, adapt, and thrive in complex IT ecosystems that rely on the IBM i operating system and Power Systems hardware. We keep our eyes on the i and help you make good decisions. Please subscribe. **www.itjungle.com**

MC Press Online has a repository of more than 9,000 articles for all levels of IBM Power Systems professionals. We cover everything you will need to know about IBM i, AIX, and Linux applications and the hardware on which these run. Our mission is to deliver information about both new technologies and the older technologies you have come to rely upon. Our goal is to help you become more productive on the job and get more out of your career. Visit the MC Press Bookstore for books on a wide variety of subjects as well. **www.mcpressonline.com**
